MDS Community Action Agency Board Seeks Member from Menominee County

The Menominee-Delta-Schoolcraft Community Action Agency Governing Board is looking for a new board member from Menominee County. The mission of MDS Community Action Agency is to empower, advocate for, and assist people in need to improve and sustain their quality of life and independence through education, housing, nutrition, volunteerism, and in-home support.

The 18-member governing board is made up of residents from Menominee, Delta and Schoolcraft counties. The board meets eight times a year, with all but one meeting taking place in Escanaba. The agency's by-laws require a third of the board is represented by low-income consumers served by the agency, a third by public officials or their representatives, and a third by the private sector.

One current vacancy is for a Menominee County resident who would represent the private sector of MDSCAA services. MDSCAA is looking for a person who represents the business community. The Community Action Agency will assist anyone interested in the open board seat.

The MDSCAA nonprofit agency provides multiple programs in the community, including early childhood/Head Start program, three senior volunteer programs, senior meals including home delivered meals, In-home services, weatherization, homeless services, and client services including Walk for Warmth, heating, and utilities assistance.

Mileage and lunch is offered to board members when the board is meeting in person.

To receive an application, go to www.mdscaa.org and click on Governing Board or telephone CAA Executive Assistant Alexandria Kleikamp at 906-786-7080 ext. 139, or email at akleikamp@mdscaa.org

Thank you for your consideration.

Sincerely,

Gary Willoughby
Executive Director

Mission statement: Empower, advocate for, and assist people in need to improve and sustain their quality of life and independence through education, housing, nutrition, volunteerism, and in-home support.
